

WE'VE GOT SOME REALLY

GOOD NEWS BREWING!

CIOCCOLATA CALDA: This Italian style hot chocolate isn't for the faint of heart. The high-quality cocoa powder is perfectly rich with just the right amount of sweetness. This is the kind of hot chocolate you make when you want to truly indulge. Mix it with full cream milk for a decadently creamy cup of hot chocolate that will have the kids as well the adults hovering around the stove.

CAFFÈ FOGAROLLI - WHOLE BEANS & GROUND COFFEE: For us, at Fogarolli, coffee is so much more than just a beverage. It's part of our Italian heritage. So, you can imagine, we take it bloody seriously. In order to achieve the highest quality possible, we hand-pick Arabica beans from a selected few plantations in South and Central America. The beans are then washed and roasted slowly to develop and accentuate its original flavours and aromas. To maintain the highest and consistent quality possible, we update the coffee blend and roasting profile at least four times a year. It is just as time consuming as it sounds. But you can't hurry love.
